

Physical Therapy Home Visits

We are excited to unveil our newest program, PT Home Visits by Elite Integrated Therapy Centers. This program is designed to be ideal for:

- **Patients who are home-bound**
- **Patients with transportation issues**
- **Patients residing far from healthcare facilities**
- **Patients with goals to transition to outpatient**
- **Patients who are difficult to contact**

What makes PT Home Visits different from Home Health?

The primary difference is that we file Medicare Part B, rather than Part A. Commercial insurances are also accepted and we file based on contracted rates.

What's the referral process for PT Home Visits?

To send patients to Elite, the referral process will remain the same. Utilize our referral pads or your office's EMR referral system to send scripts to Elite. From there, we will contact the patient to set up their initial evaluation with our therapists.

PT Home Visits by Elite Integrated Therapy Centers will be available in the following counties:

ANDERSON | GREENVILLE | GREENWOOD | LAURENS | OCONEE | SPARTANBURG
